Application for Controlled Burn Permit

Local Law No. 64-1

No open fires shall be ignited within Village limits, except when such fires are enclosed so as to prevent the dispersal of the same by winds or otherwise. Excluded from the prohibition imposed under this section are fires for which a controlled burn permit has been issued by the Code Enforcement Officer, LP – gas cooking devices specifically designed, manufactured and sold as such, provided that all such open flame cooking devices comply with the provisions of the *New York State Fire Code*. The Code Enforcement Officer is hereby authorized to issue controlled burn permits for outdoor residential “fire pits” which are located and constructed in a manner approved by the Code Enforcement Officer. Such permits shall be required to be renewed on an annual basis.

If this permit is approved it must be filled annually. Fire pits are subject to inspection upon annual filling. This permit does not warrant trash or rubbish burning.

Date: _____

Property Owner: _____
